

Prof. **Stefano Utili** Newcastle University, UK and *OptimalSlope Ltd*

Stefano is Professor of Geotechnical Engineering at Newcastle University (UK) and founder of OptimalSlope Ltd (<https://optimalslope.com/>) which commercialises Slope Optimiser, the software designing optimal mine pitwalls. Prof. Utili is Chartered Engineer, a Fellow of the Institution of Civil Engineering (ICE), a member of the International Technical Committee 208 “Slope stability in engineering practice” and has published extensively on the assessment of slope stability and the design of mine pitwalls.
